

RADWA USAMA SENGR

FRONT-END SOFTWARE ENGINEER

Dammhour, Egypt | +201558102601 | radwasengr44@gmail.com | github.com/RadwaSengr

SUMMARY

A motivated Computer Science student with a solid foundation in software engineering and a strong passion for Front-End Development. Recognized for competitive problem-solving skills, notably securing a Top 5 placement in the prestigious AI Hackathon (Organized by ITIDA, Orange Digital Center, and partners). Eager to leverage my academic background, continuous self-learning, and teamwork abilities to contribute effectively to a dynamic development team or a professional training program.

PROJECTS & ACHIEVEMENTS

BreastCancerCare-AI | Top 5 Finalist, AI Hackathon

August , 2026 – Present

- Organized by: ITIDA, TIEC, Orange Digital Center Egypt, Creativa Innovation Hubs, & Instant Software Solutions
- Link: github.com/RadwaSengr/BreastCancerCare-AI
- Secured a Top 5 position in a highly competitive nation-wide hackathon sponsored by leading tech entities in Egypt.
- Developed the front-end interface for an AI-powered healthcare application focused on breast cancer care, ensuring a compassionate, accessible, and user-friendly experience.
- Collaborated seamlessly with the team to bridge the gap between complex AI models and the end-user interface under tight deadlines.
- Technologies Used: [HTML, CSS, Python]

SAKINA Web Application

September, 2025 – June, 2026

- Link: github.com/RadwaSengr/SAKINA
- Designed and implemented a responsive and intuitive user interface for the 'SAKINA' platform, prioritizing user experience and clean design.
- Structured the application's layout to ensure seamless navigation and cross-device compatibility.
- Technologies Used: [HTML, CSS , JavaScript]

Wonderland Restaurant

July, 2024 – August, 2025

- Link: github.com/RadwaSengr/Wonderland-Restaurant
 - Built a visually appealing and dynamic front-end for a restaurant website, featuring interactive menus and engaging layouts.
 - Optimized web pages for speed and scalability while maintaining high-quality UI/UX and modern design aesthetics.
 - Technologies Used: [HTML , CSS , JavaScript]
-

EDUCATION

Bachelor of Computer Science - BHI Academy

Expected Graduation: 2027 | Enrolled: 2024

COURSES & CERTIFICATIONS

- CS50: Introduction to Computer Science - Harvard University
 - Introduction of Computer Science: ITI - Suez canal branch
 - AI Hackathon : Instant - ODC - ITIDA
-

SKILLS

- Web Development: HTML5, CSS3, Responsive Web Design, UI/UX Principles, Cross-Browser Compatibility.
- Programming Languages: Python, C, C++.
- Computer Science Fundamentals: Object-Oriented Programming (OOP), Data Structures, Algorithms, Logical Thinking.
- Version Control & Tools: Git, GitHub, VS Code, Command Line Interface (CLI).
- Data & General Tools: Data Analysis, Microsoft Office Suite (Word, PowerPoint).
- Soft Skills: Problem-Solving, Team Collaboration, Effective Communication, Fast Learner, Adaptability.
- Languages: English (Fluent), Arabic (Native).
